

# Soumyank Padhy

## Senior Software Engineer

+91 7735656839 soumyank.padhy@gmail.com soumyank.com linkedin.com/in/soumyank-padhy007 Bengaluru, Karnataka, India

### PROFESSIONAL EXPERIENCE

#### Founder & Senior Software Engineer NyxaLabs

Present

Founded software development firm specializing in custom applications, AI solutions, and digital experiences. Delivered **150+** projects across web, mobile, and AI/ML platforms for **50+** satisfied clients. Architected solutions using React, Next.js, Node.js, Python, Go, React Native, Flutter, and AWS. Implemented RAG systems, Shopify integrations, and established agile practices with **24/7** support operations.

#### Full Stack Developer Melluli Technologies

Apr 2024 - Sep 2025

Led enterprise web development for FeedXL using React.js, Node.js, TypeScript, Spring Boot, MySQL, AWS, Docker. Achieved **95%+** code coverage through TDD practices and **40%** performance improvement.

#### Freelance Full-Stack Developer Self-Employed

Sep 2023 - Apr 2024

Delivered projects using Next.js, React Native, Node.js, MongoDB, SpringBoot, AWS. Maintained **95%** client satisfaction on Upwork and Fiverr platforms.

#### Systems Engineer KEMURI Technology

Dec 2022 - Sep 2023

Developed Headless CMS features with PHP, JavaScript, PostgreSQL. Delivered projects using Nuxt.js, Vue.js, React.js, Django, Flutter. Implemented automated testing and CI/CD with GitHub Actions and Docker.

#### Systems Engineer Intern KEMURI Technology

Sep 2022 - Dec 2022

Led Django website development. Contributed to Headless CMS projects using Nuxt.js and Vue.js. Created documentation improving team efficiency by **60%**.

### TECHNICAL SKILLS

#### Frontend

React.js, Vue.js, Angular, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind, React Native

#### Backend

Node.js, Python, Django, Java, Spring Boot, PHP, Laravel, Go, RESTful APIs, GraphQL

#### Database & Cloud

PostgreSQL, MySQL, MongoDB, AWS, GCP, Azure, Docker

#### Tools & DevOps

Git, GitHub Actions, Jenkins, Linux, Jest, Postman, Flutter

### CORE STRENGTHS

- Full-Stack Architecture:** End-to-end development from database to UI/UX
- AI & Innovation:** RAG systems and ML implementations
- Agile Development:** Scrum, TDD, CI/CD practices
- Tech Leadership:** Mentoring teams and driving decisions
- Performance Optimization:** Achieving **40%** improvement through code optimization
- Cloud Architecture:** AWS, GCP, Azure deployment and management
- API Development:** RESTful and GraphQL API design and integration
- Testing & Quality:** Automated testing with **95%+** code coverage
- Mobile Development:** React Native and Flutter cross-platform apps
- E-commerce Solutions:** Shopify customization and integrations

### FEATURED PROJECTS

#### Soprize - Fair Gaming Platform

Present

Skill-based gaming platform with real-time leaderboards achieving **96%** player satisfaction.

Tech: Next.js, React, Node.js, Prisma, PostgreSQL, AWS

#### FeedXL - Horse Nutrition Calculator

Apr 2024 - Sept 2025

Equine nutrition calculator serving **10,000+** horse owners globally.

Tech: React.js, Node.js, TypeScript, Spring Boot, MySQL, AWS

#### Nagarika - Contemporary Dance Archive

Sep 2022 - Mar 2023

Django platform handling **10,000+** videos with advanced search.

Tech: Django, Python, HTML5, Tailwind CSS, JavaScript

### EDUCATION

#### B.Tech Computer Science ITER, Bhubaneswar

Jul 2019 - Jul 2023
